

SPECIAL DELIVERIES FOR SPECIAL PEOPLE

No matter who you are, when you're expecting a baby your needs are special and deserve special care. That's why Dedham Medical has teamed with Harvard Vanguard Medical Associates to establish an Obstetrics and Gynecology service to provide you with top-quality, personalized care.

DMA's OB/GYN staff includes five physicians, a nurse practitioner, and two certified nurse midwives:

- **Cristina J. Diaz, MD**
- **Adriana V. Faur, MD**
- **Sandra A Fleming, MD**
- **Michele A. Helgeson, CNM**
- **Colleen A. Mannering, CNM**
- **Joyce Tina Lee, NP**
- **Monica S. Ruehli, MD**
- **Lori A. Wroble, MD**

OBSTETRICAL CAPABILITIES

Obstetrical services encompass physician and midwife delivery options, vaginal or Cesarean delivery methods, high-risk obstetrics, attentive pre-natal care, family centered care, lactation support and post-partum counseling.

GYNECOLOGY CAPABILITIES

Gynecology services range from traditional, ongoing well-patient visits to treatment for such concerns as hormonal disorders, pelvic pain, uterine fibroids, pre-conception planning, family planning and birth control, infertility, menopausal issues, adolescent gynecology, urinary incontinence and gynecologic cancer. The staff utilizes advanced endoscopic technologies to perform laparoscopy, hysteroscopy and laser surgery.

HOSPITAL SERVICES

In addition, DMA and HVMA have established an affiliation with the Obstetrical and Gynecology Service at Newton-Wellesley Hospital, providing patients with access to delivery and surgical resources at the region's outstanding women's health center.

TO BECOME A PATIENT:

As a partnership of Dedham Medical and Harvard Vanguard Medical Associates, DMA's OB/GYN team sees patients in DMA's conveniently located offices at One Lyons Street, Dedham, and 325 River Ridge Dr., Norwood.

You can make appointments by calling Dedham Medical at **781-329-1400** and asking for the Obstetrics and Gynecology service.

If you are seeking obstetrical services, you can ask for informational interviews with any of the physician or midwife caregivers. Our physicians and midwives have close, collaborative practices. Once you've selected an obstetrical caregiver, the staff can assist in arrangements for hospital services at Newton-Wellesley Hospital's newly renovated Maternity Unit.

Although appointments are scheduled through the Dedham Medical appointment system, you will receive any bills for clinician services from Harvard Vanguard.

For information about DMA staff and services, see our website at **www.dedhammedical.com**.

ON-CALL ACCESSIBILITY

If you should need to contact your DMA OB/GYN caregiver during non-office hours, they are accessible through the on-call system 24-hours-a-day.

You can reach them by calling DMA's main number (781-329-1400) and asking to speak to the OB/GYN physician (or midwife) on call.
